Dear Ma'am or Sir,

Upon admiring the brief job description on your website for the Graphic Designer position, I would like to apply. I have a Bachelor of Science in Graphic Design from the Art Institute in Draper.

Not only do I believe I would be a good candidate with my illustration designs, but also with my cross-computer skills, including Illustrator, Photoshop, and InDesign on both PC and Mac systems.

Other skills I enjoy include marketing, environmental/signage wayfinding signs, photography, and package designs. My branding, advertising, and campaign designs are a source of pride for me. I also enjoy creating promotional and collateral designs and have a number of examples such as mailers, advertising posters and billboards, plus brochures and business tools.

My professional experience includes meeting deadlines, previous office, copy-writing/editing, administration, special projects, research, spreadsheet management, and document creation.

I am excited about the prospect of working with your company's professionalism on your various, upcoming projects. I can be reached by phone at: 801-649-3993 or by email: kerrwork@yahoo.com to schedule an interview. I look forward to hearing from you.

Sincerely,

Kerry Keith Murdock
